U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Biopesticides and Pollution
Prevention Division (7511P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

524-594

Date of Issuance:

SEP 19 2013

NOTICE OF PESTICIDE:

- x Registration
Reregistration
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

MON 87701

Name and Address of Registrant (include ZIP Code):

Monsanto Company
800 North Lindbergh Blvd.
St. Louis, MO 63167

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration does not eliminate the need for continual reassessment of the pesticide. If EPA determines at any time, that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of FIFRA.

This product registration is amended in accordance with FIFRA section 3(c)(5) to delete an expiration date and is subject to the following terms:

- 1) The subject registration is limited to a yearly total of 15,000 acres for breeding purposes, agronomic testing, and producing seed in the following states and the Commonwealth of Puerto Rico under the individual state and county limitations listed in Table 1 on page 2 of this registration notice.

NET CONTENTS \_\_\_\_\_ pounds of soybean seed

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this seed in any manner inconsistent with this labeling.

The following information must be included in the MON 87701 Grower Guide. The pesticide product may be used only for agronomic evaluation, seed increase and production in breeding nurseries as specified in the terms and conditions of this registration and on the labeling.

Soybean has been transformed to express the *Bacillus thuringiensis* subsp. *kurstaki* (*B.t.k*) delta endotoxin protein for the control of the following lepidopteran soybean pests:

- |                                |                               |
|--------------------------------|-------------------------------|
| Soybean velvetbean caterpillar | <i>Anticarsia gemmatalis</i>  |
| Soybean looper                 | <i>Pseudoplusia includens</i> |
| Soybean axil borer             | <i>Epinotia aporema</i>       |
| Sunflower looper               | <i>Rachiplusia nu</i>         |

Plants that contain the pesticide product may be grown on 15,000 acres or less in total per year in the U.S. within the states/territories of Georgia, South Carolina, North Carolina, Virginia, Maryland, Puerto Rico, Arkansas, Illinois, Indiana, Louisiana, Mississippi, Iowa, Missouri, Alabama, Tennessee, Nebraska, Ohio, Pennsylvania, and Kansas, with no more than 1,000 acres per county per year (per municipio in Puerto Rico), except in Arkansas, Illinois, Indiana, Louisiana, Mississippi, Iowa, Missouri, Alabama, Tennessee, Nebraska, Ohio, Pennsylvania, and Kansas, where a maximum of 300 acres in each of these states may be grown.
